Sheets / Docs / Slides /
Analytics

3D Applications

Cinema 4D / Redshift

Project Management

Asana / Basecamp /
Jetpack / Confluence / JIRA

Recent Work Experience

Senior Visual Designer

7/18 - Current

Rapid7

At Rapid7 there is a voluminous range of varied collateral that we produce. Everything from research reports, to our website, and video/animation projects. But I feel my greatest impacts have come through creating libraries of assets. As well as processes for myself and the team to improve consistency. Creating InDesign templates, Figma libraries, and managing our brand assets is helping to create more consistency between our designers. Thus creating a more unified and impactful brand.

Design Consultant

3/17 - 3/18

Hasbro Inc.

My primary role at Hasbro was to create instruction sheets for the 2018-2019 calendar year of Transformers toys. This included over 100 products during the course of my 1 year contract. In addition, I had the opportunity to lead the creative direction and instruction philosophy for the BotBots brand. As well as provided support to the Marvel team for higher complexity projects.

Additional Collaborations

- COMSOL
- International Game Technology
- FM Global
- IDL Development
- iLoveKickboxing.com
- Wheel of Fortune
- Partnership for Providence Parks
